

Medasyst liquefies solid medications,
at the push of a button, making
them easy to swallow.

**“ I trust Medasyst
Mycare to help with
Mum’s medications
when I can’t be
there.”**

Managing hard to swallow solid medications has never been easier than with Medasyst® Mycare. Just imagine **never** having to crush tablets again!

Medasyst® Mycare easily converts your solid medications* and nutraceuticals into an easy to swallow 50ml liquid dose.

Medasyst's UltraClear™ Daily Disposable Beakers ensures that every user only gets their medication and Medasyst's range of Masking Flavours means that medications have never tasted so good.

You and Medasyst. Changing people's lives.

Medasyst Mycare Unit Features:

Removable stirring paddle for easy cleaning.

Disposable beaker to minimise cross contamination.

Large LCD Screen for clarity.

'Gentle opening' top cover.

Sturdy ABS body for durability.

Quick Release button for easy opening.

Large easy to use buttons.

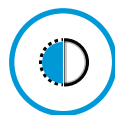

Medasyst Mycare Key Advantages

NO MORE CRUSHING
Crushing tablets can create inconsistent outcomes that are hard to swallow.

SAVES TIME
Set the machine to run and it creates a liquid dose in just minutes.

STOPS MEDICATION LOSS
Up to 50% of a medication's dose can be lost during crushing. Medasyst® Mycare delivers up to 98% of your medication.

Medasyst Mycare Starter Kit

Medasyst® Mycare Unit, Medasyst Range of Flavours and Medasyst UltraClear™ Daily Disposable Beakers.

Medasyst Unit RRP - \$696.00
